7th South-East European Congress and Exhibition on EE & RES

13 – 15 April 2011, Sofia, Bulgaria

Innovative technologies and practices, strong international participation, a lot of new business contacts, many parallel initiatives and discussions – this is what the 7th edition of the South-East EE & RES Congress and Exhibition will offer.

THE EXHIBITION

About 6 months before the event 2/3 of the exhibition area is already booked for Spanish National Participation and group participations from Austria, Czech Republic, China, Finland, Slovenia, Spain and the USA. Among the exhibitors are well known names: Enercon, Global Wind Power, Fronius, Hyundai, Phono Technologies Switzerland, Siemens, Franki Grundbau, Eurosol and many Bulgarian companies.

The participants will display their state-of-the-art products, solutions and services in the fields of renewable energy sources and energy efficiency.

THE CONGRESS

The attendees will learn about the latest industry trends and get acquainted with expert analysis and forecasts.

Highlights:

- RES Technologies
- Energy Efficiency
